EST. 1917

From small beginnings as a coach builder to 100 years in real estate, Facey has been an influential part of Dandenong, now a trusted authority on industrial and commercial property throughout Melbourne's South East.

The Facey name has been synonymous with real estate since 1917, when Frank Facey changed careers and embarked on building a solid business that has lasted three generations and spawned a number of successful agencies. Facey Industrial Commercial is a specialist industrial commercial agency, providing sales, leasing and property management expertise. Our business also includes Facey Owners Corp, a recent addition to our suite of services.
